

# INTERESTED IN A BS OR MS DEGREE IN CYBERSECURITY?

In partnership with the California Community Colleges, National University has developed academic pathways that build upon the coursework at community colleges to help you reach your academic goals.

## HERE'S HOW ACADEMIC PATHWAYS WORK:

**Step 1)** Review your California Community College's cybersecurity degree offerings.

**Step 2)** Complete either IGETC or CSU breadth general education certification and recommended cybersecurity curriculum at a California community college.

**Step 3)** Submit your transcripts and apply!

If your California Community College has developed a cybersecurity program recently, and you would like National University to review the curriculum, please contact **Bill Reid** at [wreid2@nu.edu](mailto:wreid2@nu.edu) OR **Chris Simpson** at [csimpson@nu.edu](mailto:csimpson@nu.edu).

**NATIONAL  
UNIVERSITY**

Veteran Founded. Nonprofit.

Asya W., Class of 2009
